The averages for the whole period are obtained, not by adding together the average of each year, and taking a mean, which would be fallacious, because the number of Recoveries in each year greatly varies; but it is obtained by adding together all the periods of residence, and dividing at each year's end by the total number of recoveries.

## FORM OF LEGACY.

---

Persons disposed to contribute to this Asylum by their last Will, are particularly requested to use the following words.

*I bequeath out of such part of my estate as may be applied to Charitable Purposes, a Legacy of £ \_\_\_\_\_ sterling, to the LINCOLN LUNATIC ASYLUM, to be paid clear of legacy duty,\* within \_\_\_\_\_ months after my decease, to the Treasurer for the time being of the Asylum, whose written receipt for such Legacy shall be a sufficient discharge to the Executors.*

 For want of this form, many Charities have lost their Legacies, the Testators having charged them on their *real* instead of their *personal* estate.

\* If so intended.
